Re: **Third Request** for Corrected Filing Receipt for:
Christian von Falkenhausen et al. U.S. Patent Appln. 10/517,087 filed 12/06/2004
ACTIVE SUBSTANCE-CONTAINING FILM-LIKE PREPARATIONS
HAVING IMPROVED CHEMICAL STABILITY, AND PROCESSES
FOR THEIR PREPARATION / Our Ref. RO0937US (#90568)

Dear Sir or Madam:

Attached is a copy of the official Filing Receipt for the referenced application with a "Date Mailed: 06/22/2005." Please correct the Filing Receipt as indicated thereon, as noted below, and as substantiated by the following discussion and documents:

A. Order of Inventors:

Applicant(s)	Christian von Falkenhausen, Meckenheim, GERMANY Walter Muller, Andernach, GERMANY Markus Krumme, Neuwied, GERMANY
---------------------	---

The order of the inventors is substantiated by the "Transmittal Letter" for the U.S. national phase application and by the PCT application as published under No. WO 03/101421 A1. See sheets marked A1 and A2.

B. Power of Attorney:

Power of Attorney: D. Peter Hochberg – 24,603
Katherine R. Vieyra – 47,155
William H. Holt – 20,766

On filing of the application, the USPTO had accepted a Declaration filed with the PCT application. On August 31, 2005 we mailed a "Combined Declaration and Power of Attorney" to the USPTO for entry of the Power of Attorney portion thereof. This document was received at the USPTO on September 6, 2005. See sheets marked B1 through B7.

C. Title**Title**

ACTIVE SUBSTANCE-CONTAINING FILM-LIKE PREPARATIONS
HAVING IMPROVED CHEMICAL STABILITY, AND PROCESSES
FOR THEIR PREPARATION

This title was presented in the "Preliminary Amendment" filed with the application and was to be entered as the official title for this case since this is a U.S. national phase of a PCT. See relevant sheets marked C1 through C3.

As this is our third request for a corrected filing receipt (the earlier requests having been faxed on July 29, 2005 and November 23, 2005, but to different fax numbers in the "703" area code before offices moved), we are hopeful that this will result in a properly corrected Filing Receipt. Thank you for your assistance in connection with this matter.

Respectfully submitted,

Christine Kotran

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls,
